It is particularly good for use in teaching English as a spoken language. However, students with a good grasp of English can also use it for personal study as the concepts are well-explained and they can evaluate themselves by checking their own answers. The Grammar in Use Basic is essential for anyone wishing to master English.

Understanding on the right. This edition includes an Audio CD with example sentences, 10 units of new material, more exercises per unit, and a section of Additional Exercises, which give students the opportunity to consolidate what they have learned. An edition without answer keys is also available. Basic Grammar in Use, Second Edition, can be used as a class text or for self-study.

This innovative grammar text is an ideal resource for writers, language students, and classroom teachers who need an accessible refresher in a step-by-step guide to essential grammar. Rather than becoming mired in overly detailed linguistic definitions, Nancy Sullivan helps writers and students understand and apply grammatical concepts and develop the skills they need to enhance their writing. Along with engaging discussions of both contemporary and traditional terminology, Sullivan's text provides clear explanations of the basics of English grammar and a practical, hands-on approach to mastering the use of language. Complementing the focus on constructing excellent sentences, every example and exercise set is contextually grounded in language themes. This updated edition includes new sections in each chapter on Writing Matters (addressing key tools and concerns for writers) and Language Varieties (addressing issues of social and regional dialect variation). This is an ideal textbook for any writing course across disciplines where grammatical precision is important. Online resources including additional exercises, links, and an answer key are available at [Routledge.com/9780367148683](http://Routledge.com/9780367148683). Instructor materials accompanying the text provide teachers with
