including the Edgar Award-nominated story "Still Life No.41", a wonderful story of gruesome revenge involving a wayward son-in-law, a surprising and hilarious tale of a pre-historic serial killer who invents God and psychoanalysis, and, inevitably, a vampire story told with venom and humor. These stories remind one of the best short stories by Stephen King, such as those in the 'Just after Sunset' compilation. They can be horrific but are never without a devastating sense of humor. As in the adult short stories of Roald Dahl (the 'Kiss Kiss' collection in particular, with its tales of family and other violence) there is great ingenuity, surprising and satisfying endings, and, since it's Solana, deep cutting satire of contemporary fads and mores.

"The fulfilled renown of Moby-Dick and of As I Lay Dying is augmented by Blood Meridian, since Cormac McCarthy is the worthy disciple both of Melville and Faulkner," writes esteemed literary scholar Harold Bloom in his Introduction to the Modern Library edition. "I venture that no other living American novelist, not even Pynchon, has given us a book as strong and memorable." Cormac McCarthy's masterwork, Blood Meridian, chronicles the brutal world of the Texas-Mexico borderlands in the mid-nineteenth century. Its wounded hero, the teenage Kid, must confront

Loosely based on fact, the novel represents a genius vision of the historical West, one so fiercely realized that since its initial publication in 1985 the canon of American literature has welcomed Blood Meridian to its shelf. "A classic American novel of regeneration through violence," declares Michael Herr. "McCarthy can only be compared to our greatest writers."
