In this comprehensive volume Kit Sadgrove shows how you can identify - and control - the relevant threats and ensure that your company will survive. He begins by asking 'What is risk?' 'How do we assess it?' and 'How can it be managed?' He goes on to examine in detail the key danger areas including finance, product quality, health and safety, security and the environment. With case studies, self-assessment exercises and checklists, each chapter looks systematically at what is involved and enables you to draw up action plans that could, for example, provide a defence in law or reduce your insurance premium.
