BS 5975:2019: Title: Code of practice for temporary works procedures and the permissible stress design of falsework: Status: Current: Publication Date: 30 May 2019: Normative References(Required to achieve compliance to this standard)

BS 5975:2019 Code of practice for temporary works---

BS 5975:2006 gives recommendations for the design use of falsework on construction sites. This code has drawn together all those aspects that need to be considered when preparing a falsework design, and in so doing has included recommendations for material, design and work on site. Because the success of falsework is closely tied up with its management, this code also describes procedures as well as technical aspects.

BS 5975:1996— Code of practice for falsework—BSI---

By David Thomas posted 11-06-2019 12:10. BSI has published a new edition of BS 5975:2019, Code of practice for temporary works procedures and the permissible stress design of falsework . This can be purchased from <https://shop.bsigroup.com/ProductDetail/?pid=00000000030349708>.

BS 5975: 2019—New Edition

The BS5975 code of practice developed because of several high-profile temporary works failures in the 1960's and 70's. Some of these failures caused fatalities and cumulatively they led to the publication of the Bragg report in 1974. This was followed by the publication of BS5975 in 1982. The first temporary works guidance in the world.

BS 5975 code of practice guidance—Andun Engineering---

BS 5975 gives recommendations for temporary structures on building sites, with practical guidelines on design, specification, construction and the use and dismantling of falsework. It should be noted that the changes in this revision affect Sections 1 and 2 only, and that Section 3 remains unchanged.
