main quality problems are due to management rather than workers.

The attainment of quality requires activities in all functions of a firm. Firm-wide assessment of quality, supplier quality management, using statistical methods, quality information system, and competitive benchmarking are essential to quality improvement.

~~Chapter 2 Concept of Total Quality Management~~

Supplier quality management is defined as the system in which supplier quality is managed by using a proactive and collaborative approach. It's in an organization ' s best interest to ensure that its service or material suppliers are providing the highest quality

Should building management notify public health officials if a worker tests positive for COVID-19? NYS guidance requires employers to notify public health officials if they learn of an employee who is a confirmed or suspected case. If employers wish to report directly to public health authorities, they can email the NYC Test & Trace Corps at
