As controversial and talked-about as Case Closed was Posner's 1998 Killing the Dream: James Earl Ray and the Assassination of Martin Luther King, Jr. (Random House). The book concluded that confessed assassin, James Earl Ray, killed Martin Luther King Jr. acting alone, likely for the hope of collecting a racist bounty for the murder.

Gerald Posner - Wikipedia

Gerald Posner (b. 1954) is a renowned investigative journalist. Born in San Francisco, California, he attended the University of California, Berkeley, and went on to a career in law. Posner earned international acclaim with Case Closed (1993), an exhaustive account of the Kennedy assassination that debunked many conspiracy theories.

Case Closed: Lee Harvey Oswald and the Assassination of ...

With an open mind, readers of Case Closed should find it hard to disagree with Posner's conclusions, but most Americans today still believe there was a conspiracy of some kind to kill President Kennedy.

Read PDF Case Closed Gerald Posner

Posner addresses most of the favorite and more viable conspiracies, but still faced a backlash that led to additional explanations in his 2013 edition of this book.

Case Closed: Lee Harvey Oswald and the Assassination of ...

There was no second gunman on the grassy knoll. The CIA was not involved. And although more than four million pages of documents have been released since Posner first made his case, they have served only to corroborate his findings. Case Closed remains the classic account against which all books about JFK's death must be measured.

America Slept were New York Times bestsellers.

Pulitzer Prize Finalist: "By far the most lucid and compelling account . . . of what probably did happen in Dallas—and what almost certainly did not." —The New York Times Book Review The Kennedy assassination has reverberated for five decades, with tales of secret plots, multiple killers, and government cabals often overshadowing the event itself. As Gerald Posner writes, "Fifty years after the assassination, the biggest casualty has been the truth." In this first-ever digital edition of his classic work, updated with a special comment for the fiftieth anniversary, Posner lays to rest all of the convoluted conspiracy theories—concerning the mafia, a second shooter, and the CIA—that have obscured over the decades what really happened in Dealey Plaza on November 22, 1963. Drawing from official sources and dozens of interviews, and filled with powerful historical detail, *Case Closed* is a vivid and straightforward account that stands as one of the most authoritative books on the assassination of John F. Kennedy.

Provides new evidence from computerized film enhancements and other sources, including an explanation of Kennedy's assassination renouncing conspiracy theories.

An all-encompassing analysis of the assassination of JFK and its surrounding conspiracy theories draws on forensic evidence, key witness testimonies, and other sources to explain what really happened and why conspiracy theories have become so popularized.

Award-winning journalist and New York Times bestselling author Gerald Posner reveals the heroes and villains of the trillion-dollar-a-year pharmaceutical industry and delivers "a withering and encyclopedic indictment of a drug industry that often seems to prioritize profits over patients (The New York Times Book Review). Pharmaceutical breakthroughs such as antibiotics and vaccines rank among some of the greatest advancements in human history. Yet exorbitant prices for life-saving drugs, safety recalls affecting tens of millions of Americans, and soaring rates of addiction and overdose on prescription opioids have caused many to lose faith in drug companies. Now, Americans are demanding a national reckoning with a monolithic industry. "Gerald's dogged reporting, sets Pharma apart from all books on this subject" (The Washington Standard) as we are introduced to brilliant scientists, incorruptible government regulators, and brave whistleblowers facing off against company executives often blinded by greed. A business that profits from treating ills can create far deadlier problems than it cures. Addictive products are part of the industry's DNA, from the days when corner drugstores sold morphine, heroin, and cocaine, to the past two decades of dangerously overprescribed opioids. Pharma also uncovers the real story of the Sacklers, the family that became one of America's wealthiest from the success of OxyContin, their blockbuster narcotic painkiller at the

center of the opioid crisis. Relying on thousands of pages of government and corporate archives, dozens of hours of interviews with insiders, and previously classified FBI files, Posner exposes the secrets of the Sacklers' rise to power—revelations that have long been buried under a byzantine web of interlocking companies with ever-changing names and hidden owners. The unexpected twists and turns of the Sackler family saga are told against the startling chronicle of a powerful industry that sits at the intersection of public health and profits. “Explosively, even addictively, readable” (Booklist, starred review), *Pharma* reveals how and why American drug companies have put earnings ahead of patients.

A deeply reported, New York Times bestselling exposé of the money and the clerics-turned-financiers at the heart of the Vatican—the world's biggest, most powerful religious institution—from an acclaimed journalist with “exhaustive research techniques” (The New York Times). From a master chronicler of legal and financial misconduct, a magnificent investigation nine years in the making, *God's Bankers* traces the political intrigue of the Catholic Church in “a meticulous work that cracks wide open the Vatican's legendary, enabling secrecy” (Kirkus Reviews). Decidedly not about faith, belief in God, or religious doctrine, this book is about the church's accumulation of wealth and its byzantine financial entanglements across the world. Told through 200 years of prelates, bishops, cardinals, and the Popes who oversee it all, Gerald Posner uncovers an eyebrow-raising account of money and power in one of the world's most influential organizations. *God's Bankers* has it all: a revelatory and astounding saga marked by poisoned business titans, murdered prosecutors, and mysterious deaths written off as suicides; a carnival of characters from Popes and cardinals, financiers and mobsters, kings and prime ministers; and a set of moral and political circumstances that clarify not only the church's aims and ambitions, but reflect the larger tensions of more recent history. And Posner even looks to the future to surmise if Pope Francis can succeed where all his predecessors failed: to overcome the resistance to change in the Vatican's Machiavellian inner court and to rein in the excesses of its seemingly uncontrollable financial quagmire. “As exciting as a mystery thriller” (Providence Journal), this book reveals with extraordinary precision how the Vatican has evolved from a foundation of faith to a corporation of extreme wealth and power.

As he nears retirement and the end of a twenty-eight-year double life, Connor Fitzgerald comes across the first enemy he cannot handle, the CIA director who is his boss and who must destroy him to save herself. Reissue. 250,000 first printing.

Here, in all its neon-colored, cocaine-fueled glory, is the never-before-told story of the making of Miami Beach. Gerald Posner, author of the groundbreaking investigations *Case Closed* and *Why America Slept*, has uncovered the hair-raising political-financial-criminal

history of the Beach and reveals a tale that, in the words of one character, "makes Scarface look like a documentary." From its beginnings in the 1890s, the Beach has been a place made by visionaries and hustlers. During Prohibition, Al Capone had to muscle into its bootlegging and gambling businesses. After December 1941, when the Beach was the training ground for half a million army recruits, even the war couldn't stop the party. After a short postwar boom, the city's luck gave out. The big hotels went bankrupt, the crime rate rose, and the tourists moved on to Disney World and the Caribbean. Even after the Beach hosted both national political conventions in 1972, nobody would have imagined that this sandy backwater of run-down hotels and high crime would soon become one of the country's most important cultural centers. But in 1981, 125,000 Cubans arrived by the boatload. The empty streets of South Beach, lined with dilapidated Art Deco hotels, were about to be changed irrevocably by the culture of money that moved in behind cocaine and crime. Posner takes us inside the intertwined lives of politicians, financiers, nightclub owners, and real estate developers who have fed the Beach's unquenchable desire for wealth, flash, and hype: the German playboy who bought the entire tip of South Beach with \$100 million of questionable money; the mayoral candidate who said, "If you can't take their money, drink their liquor, mess with their women, and then vote against them, you aren't cut out for politics"; the Staten Island thug who became king of the South Beach nightclubs only to have his empire unravel and saved himself by testifying against the mob; the campaign manager who calls himself the "Prince of Darkness" and got immunity from prosecution in a fraud case by cooperating with the FBI against his colleagues; and the former Washington, D.C., developer who played hardball with city hall and became the Beach's first black hotel owner. From the mid-level coke dealers and their suitcases of cash to the questionable billions that financed the ocean-view condo towers, the Beach has seen it all. Posner's singular report tells the real story of how this small urban beach community was transformed into a world-class headquarters for American culture within a generation. It is a story built by dreamers and schemers. And a steroid-injected cautionary tale.

Based on exclusive and unrestricted access to more than 5,000 pages of personal writings and family photos, this definitive biography of German physician and SS-Hauptsturmführer Josef Mengele (1911-1979) probes the personality and motivations of Auschwitz's "Angel of Death." From May 1943 through January 1945, Mengele selected who would be gassed immediately, who would be worked to death, and who would serve as involuntary guinea pigs for his spurious and ghastly human experiments (twins were Mengele's particular obsession). With authority and insight, Mengele examines the entire life of the world's most infamous doctor.

Examines the terrorist attacks of September 11th and why the disaster was not prevented, discussing how breakdowns in intelligence and

political infighting allowed terrorists to carry out an unprecedented attack on American soil.

A leading thinker on Canada's place in the world contends that our country's greatest untapped resource may be the three million Canadians who don't live here. Entrepreneurs, educators, humanitarians: an entire province's worth of Canadian citizens live outside Canada. Some will return, others won't. But what they all share is the ability, and often the desire, to export Canadian values to a world sorely in need of them. And to act as ambassadors for Canada in industries and societies where diplomatic efforts find little traction. Surely a country with people as diverse as Canada's ought to plug itself into every corner of the globe. We don't, and sometimes not even when our expats are eager to help. Failing to put this desire to work, contends bestselling author and longtime foreign correspondent John Stackhouse, is a grave error for a small country whose voice is getting lost behind developing nations of rapidly increasing influence. The soft power we once boasted is getting softer, but we have an unparalleled resource, if we choose to use it. To ensure Canada's place in the world, Stackhouse argues in Planet Canada, we need this exceptional province of expats and their special claim on the twenty-first century.
