Chess: 5334 Problems, Combinations and GamesBy L szl Polg r

Susan Polgar became the first female Grandmaster at age 15—and it wasn't luck that got her there. Her use of tactics, combinations, and strategy during her games gave her the critical advantage she needed against her opponents. InChess Tactics for Champions, Polgar gives insight into the kind of thinking that chess champions rely on while playing the game, specifically the ability to recognize patterns and combinations. With coauthor Paul Truong, Susan Polgar teaches the tactics she learned from her father, Laszlo Polgar, one of the world's best chess coaches. • Teaches players how to calculate the effect of a move in order to gain an edge over an opponent • For intermediate to advanced chess players of all ages

"Notions of chess have been shattered by a teen-age Hungarian girl - some call her modest and soft-spoken, but many opponents know her as a ferocious tiger over the board - who after years of steady progress began breathing down the necks of the top men and now has broken the barrier of one of the worlds most exclusive clubs: she has earned the rank of grandmaster at 15 years, 5 months, one month younger than Bobby Fischer when he did it 34 years ago." New York Times, 1992 Great achievements often take a lifetime of preparation, but when these achievements are becoming the World Number 1 woman chess player at the age of 12 and the youngest ever grandmaster at the age of 15 you have to start early! In this very personal book Judit Polgar describes her early moments of success and the chess ideas she needed to master to achieve them. This exceptional book is the beginning of a unique project where one of the greatest players of our time transforms her personal journey to the top into a roadmap for everyone who ever wanted to better themselves in the game of chess.

New and substantially expanded edition of a modern chess classic. By chance, in 2013 publisher New In Chess discovered a previously unnoticed and unpublished extra batch of endgame tactics collected by the legendary Dutch correspondence grandmaster Ger van Perlo (1932-2010). More than 250 fresh examples have been added, making this fourth edition 25% BIGGER than its predecessors. For casual players and club players. Why is it that most amateur chess players love opening and middlegame tactics but hate endgames? Why do you usually look at only a couple of pages in any endgame theory book you see? Sit back, forget about theoretical endgames, and enjoy the entertainment of real life chess in Endgame Tactics! There is no substitute for hard work in getting better at chess, as a wise grandmaster once said. But you always work harder at something you enjoy. Make the first step towards improving your endgame play (and beating more opponents) by learning to love the endgame. Endgames are fun, and the examples from everyday practice in Endgame Tactics prove it. • New (4th) and 25% expanded edition of a best- selling modern classic • More than 1,300 Sparkling Tricks and Traps • WINNER of the ECF Book of the Year Award • WINNER of the ChessCafe Book of the Year Award • Makes regular players discover the fun in endgame

SHARPEN YOUR TACTICS is a chess tactics training book and is for every class of chess player. The examples are rated by difficulty and the problems gradually become more difficult as you move through the book, leading you into the world of high-level chess tactics. This book will greatly improve the readers chess game.

Grandmaster Alexander Panchenko (1953-2009) was one of the most successful chess trainers in the Soviet Union, and later in Russia. Panchenko ran a legendary chess school that specialised in turning promising players into masters. The secret of his success were his dedication and enthusiasm as a teacher combined with his outstanding training materials. ' Pancha ' provided his pupils with systematic knowledge, deep understanding and the ability to take practical decisions. Now, Panchenko ' s classic Mastering Chess Middlegames is for the first time available in translation, giving club-players around the world access to this unique training method. The book contains a collection of inspiring lessons on the most important middlegame topics: attack, defence, counterplay, realising the advantage, obstructing the plans of your opponent, the battle of the heavy pieces, and much more. In each chapter, Panchenko clearly identifies the various aspects of the topic, formulates easy-to-grasp rules, presents a large number of well-chosen examples and ends with a wealth of practical tests. The brilliance of Alexander Panchenko ' s didactic method shines through in this book. It is hard to give better advice for ambitious chess players than to follow this tried-and-tested and highly instructive road towards mastering the chess middlegame.

A uniform treatment of the four protease groups and a discussion of the differences and similarities in their action is presented in this important new publication. Serine, cysteine, aspartate, and zinc proteases are systematically discussed by nomenclature, evolution, specificity and their regulatory role. The chemistry of the peptide bond, including the catalysis of ester and peptide hydrolyses, is explained. For each protease group the emphasis is placed on the structure and function. Kinetics, enzyme modifications, isotope effects, subzero temperature investigations, nuclear magnetic resonance measurements, X-ray diffraction data, binding of transition-state analogs, zymogen activation, and site-specific mutagenesis are combined to rationalize the action of proteases. Both natural and synthetic inhibitors are considered because of their importance in mechanistic studies and drug design.

Winning Chess the Polgar Way! In A World Champion ' s Guide to Chess, Women ' s World Champion Susan Polgar ' s exclusive training methods will have you playing winning chess! Topics include Chess Essentials, Tactics, Strategy, Pattern Recognition, Endgames, Chess Etiquette, Advice for Parents & Coaches and much more! SUSAN POLGAR is a winner of four Women ' s World Championships and the top-ranked woman chess player in the United States. She became the #1 woman player in the world at 15 and remained in the top 3 for over 20 years. In 2013, she received the U.S. Coach of the Year Award and the following year, she was named the Chess Trainer of the Year by the International Chess Federation (FIDE). She thus became the first person in history to be accorded both honors. Under her guidance, SPICE chess teams at both Texas Tech University and Webster University have won a combined five consecutive National Division I Collegiate Chess Championships. PAUL TRUONG is winner of eleven national titles, a prolific chess trainer, and award-winning chess author. He was also captain and manager of the historic 2004 US Women ' s Olympiad team which won two gold and two silver medals, as well as the coach of the five-time national champion SPICE chess teams. [The following text will appear in online descriptions, along with the text above, but not on the back cover]: The best-selling A World Champion ' s Guide to Chess is available again!

A 21st-Century Edition of a Great Checkmate Collection! Ask most chessplayers from the " baby boomer " generation how they acquired and sharpened their tactical skills, and chances are a Fred Reinfeld tactics collection will be part of their answer. And now, for the first time, 1001 Brilliant Ways to Checkmate is available in modern algebraic notation. This may be the all-time great checkmate collection, with forced checkmate positions culled mainly from actual play. And Reinfeld's selection is simply marvelous, touching on all the important tactical themes. In short, this is an outstanding book to hone your tactical abilities. It will help you recognize mating patterns, develop visualization skills, enhance imagination, and improve tactical sharpness. And now, with a modern 21st-century edition of this great checkmate collection finally available, there is no excuse for not only improving your tactical skills, but also enjoying yourself along the way.
