Organized with a systems approach to major disease, this atlas features four chapters of general pathology and 15 systems chapters. In each, you'll find these features: a brief overview of normal histologic findings; color micrographs of typical pathologic changes; corresponding text which highlights details in the illustrations; line drawings correlated to histologic findings, gross pathology or pathologic processes; and a focus on the most common diseases and their pathophysiologic details. Students will appreciate the format of this resource, which corresponds to the sequence in which they learn and study. An ideal review source for examinations and national boards, Histopathology: A Color Atlas and Textbook also supplements more comprehensive, less illustrated texts in the field.
