Beware of Dr. David Pawson's False Gospel

It is to the credit of David Pawson that while all the major denominations that sprang out of the Reformation fell for Erasmus's deception, and have incorporated Erasmus's theology into their confessional creeds, he stood virtually alone against this liberal, humanist, theology. Instinctively, he was correct.

David Pawson is not a scholar and his audience is not in a position to critique or question what he is telling them. In academic parlance his teaching is not peer-reviewed. And his burdens and special revelations from God just don't 'do it' for me any more; these are the figments of his own mind and experience, not words from God.

Basing his study on the New Testament, David Pawson advocates a synthesis of the 'liberal' emphasis on repentance, the 'evangelical' on faith, the 'sacramental' on baptism and the 'pentecostal' on the Spirit. He then relates these 'spiritual dooes' to the concepts of conversion and regeneration. The Normal Christian Birth looks at crucial and controversial texts, challenging traditional interpretations. The final section on evangelistic counselling questions the adequacy of the typical 'sinner's prayer' approach. Drawing from scripture and experience, David Pawson gives many practical tips on helping potential disciples to repent, believe, be baptised and receive the Spirit.

Consecutive polygamy (as many husbands or wives as you like but only one at a time) is now an accepted norm in contemporary society. Hardly surprising, since the social, legal, moral and financial restraints holding marriages together for a lifetime have been steadily eroded in a relativist age where anything goes. What is surprising is that divorce and remarriage are becoming as common inside the church as outside, even among Christian leaders and especially in the Evangelical stream. Believers have been outspoken about such issues as abortion and homosexuality though their Lord Jesus said nothing about either. He did say quite a lot about the subject of this book but there is either a reluctance to take his teaching at face value or an eagerness to enlarge his [exception] until it becomes the rule. This volume primarily appeals to those for whom the Bible is the final authority in all matters of belief and behaviour, especially those who preach to, teach and counsel others. The author believes that the church should be leading the world uphill rather than following the world downhill. David Pawson has a worldwide teaching ministry, particularly for church leaders. He is known to many through Christian broadcasting and is the author of numerous books.

The author writes: The so-called 'Lord's Prayer' is full of surprises. For one thing, the Lord could never have used it himself, with its central and longest plea for forgiveness. Though he gave it as a model for private prayer, it has become the most common corporate liturgy of the church. Its brevity is striking, consistent with his criticism of pagan devotions with their 'many words'. Above all, it is comprehensive, covering all the basic concerns of a Christian, while clearly indicating that these should cover God's needs (honour and loyalty) before his or her own (food and forgiveness). Even though it begins with God, whom Jesus called 'my' Father, but we must say 'our' Father, it ends with the devil: deliver us from the evil (one). It is for weekdays rather than Sundays. Try using it for a month.

While religious leaders are frantically pointing at the danger of rationalistic humanism outside the Church, many of these very same leaders are unknowingly, and we want to emphasize, unknowingly, teaching from their pulpits one of the most permissive and destructive concepts of humanistic doctrine ever devised by man: the present-day teachings concerning marriage, divorce and remarriage. As a result, the divorce rate in the Church is higher today than in the unchurched world. As you read this book, you will be confronted with a humanistic worldview and a biblical worldview concerning divorce and remarriage. - Introduction.

This book provides a clear scholarly introduction to study of the life of Jesus and of the four New Testament gospels. In the second edition, special attention is given to ways of assessing the relevant literary and archaeological evidence. Current scholarly debates are considered, but the main emphasis is on thorough study of key passages in the gospels.

Realistic Evaluation shows how program evaluation needs to be, and can be bettered. It presents a profound yet highly readable critique of current evaluation practice, and goes on to introduce a `manifesto' and `handbook' for a fresh approach. The main body of this book is devoted to the articulation of a new evaluation paradigm, which promises greater validity and utility from the findings of evaluation studies. The authors call this new approach `realistic evaluation'. The name reflects the paradigm's foundation in scientific realist philosophy, its commitment to the idea that programmes deal with real problems rather than mere social constructions, and its primary intention, which is to inform realistic developments in policy making that benefit programme participants and the public. Ray Pawson and Nicholas Tilley argue with passion that scientific evaluation requires a careful blend of theory and method, quality and quantity, ambition and realism. The book offers a complete blueprint for evaluation activities, running from design to data collection and analysis to the cumulation of findings across programmes and onto the realization of research into policy. The argument is developed using practical examples throughout and is grounded in the major fields of programme evaluation. This book will be essential reading for all those involved in the evaluation process especially those researchers, students and practitioners in the core disciplines of sociology, social policy, criminology, health and education. `This book is a must for those engaged in the field, providing a fully illustrated text on evaluation with numerous examples from the criminal justice system. Unusually, it offers something for the academic, practitioner and student alike. I found Pawson and Tilley's latest work on evaluation an enjoyable and informative read. For myself their "realistic evaluation" clarified and formalised a jumbled set of ideas I had already been developing. Although not everyone will agree with the methodology proposed by the authors, this book is a valuable read as it will cause most of us at least to review our methodological stance' - International Journal of Police Science and Management `This is an engaging book with a strong sense of voice and communicative task. The voice is sometimes strident, but always clear. Its communicative qualities are evident equally in its structure: lots of signposting for the reader within and across chapters' - Language Teaching Research `This provocative, elegant and highly insightful book focuses on the effective incorporation of actual practice into the formulation of evaluation methodology. What a pleasure to read sentences like: "The research act involves "learning" a stakeholder's theories, formalizing them, and "teaching" them back to that informant who is then in a position to comment upon, clarify and further refine the key ideas". Pawson and Tilley have given us a wise, witty and persuasive account of how real practitioner experience might be encouraged to intrude on (and modify) researchers' concepts about program processes and outcomes. This holds important promise for achieving something that is devoutly to be wished: closer interaction among at least some researchers and some policy makers' - Eleanor Chelimsky, Past-President of the American Evaluation Association `This is a sustained methodological argument by two worldly-wise social scientists. Unashamedly intellectual, theoretically ambitious yet with a clear but bounded conception of evaluation. It is articulate, occasionally eloquent and always iconoclastic, whilst eschewing "paradigm wars". The Pawson and Tilley "realist" call to arms threatens to take no prisoners among experimentalists, constructivists or pluralists. It is the kind of book that clarifies your thoughts, even when you disagree with everything they say' - Elliot Stern, The Tavistock Institute

Was the 'Toronto Blessing' an act of God or just hysteria? This book gathers together essays by evangelicals with different assessments. Religious craze and great revival were the calls and claims made about the phenomenon that hit the church in 1994. The Toronto Blessing was to create a stir in evangelical circles that has lasted to today. Carefully identifying, assessing and cataloging the phenomenon and its effect upon the Church, this report presents thoughts and conclusions to a listening public. In this balanced and sensitive work the background, development and future opportunities that surround this controversial issue are discussed in detail. Part 1 collects reflective essays by six leading commentators on charismatic renewal: David Pawson, Patrick Dixon, Stephen Sizer, Margaret Poloma, Martin Davie and Mark Cartledge. In Part 2, Hilborn draws on the Evangelical Alliance's extensive archive to present a definitive chronicle of the Blessing, from its pre-history to its eventual decline and transmutation. Part 3 offers a valuable compendium of key statements on the Blessing issued by church bodies, Christian organizations, and groups from 1994 onwards.

David Pawson presents a unique overview of both the Old and New Testaments.

The author writes: John 3:16 is often referred to as 'the gospel in a nutshell'. I believe it is one of the most mistranslated verses in the Bible. Like most Christians I totally misunderstood the verse. So I am warning you now that I may spoil John 3:16 for you for the rest of your life. But I hope that this book will also give you the true meaning of what is a wonderful message, and a very important one, especially for Christians.
