Crocodile - Wikipedia

Crocodiles are the largest and the heaviest of present-day reptiles. The largest representatives, the Nile crocodile (*Crocodylus niloticus*) of Africa and the estuarine (or saltwater) crocodile (*C. porosus*) of Australia, attain lengths of up to 6 metres (20 feet) and weigh over 1,000 kg (about 2,200 pounds).

Crocodiles: Facts & Pictures | Live Science

Crocodiles. The crocodile order (Crocodylia) consists of several families of large, unmistakable, amphibious reptiles: the crocodiles (Crocodylidae), gavials (Gavialidae), and the alligators and caimans (Alligatoridae). Although these animals look superficially like lizards, they are different in many important respects, and are believed by biologists to be the most highly evolved of the living ...

Principal among these are fishes and birds, but larger crocodiles also prey upon the young.

Crocodile - Natural history | Britannica

The Crocodile is a large aquatic reptile that lives throughout the Tropics in Africa, Asia, the Americas and Australia. Crocodiles tend to congregate in freshwater habitats like rivers, lakes, wetlands and sometimes in brackish water (water that is saltier than fresh water, but not as salty as seawater). Some species, particularly the Saltwater Crocodile of [...]

Crocodile - Facts, Diet & Habitat Information

The American crocodile (Crocodylus acutus) is a species of crocodylian found in the Neotropics. It is the most widespread of the four extant species of crocodiles from the Americas, with populations present from South Florida and the coasts of Mexico to as far south as Peru and Venezuela.. The habitat of the American crocodile consists largely of coastal areas.

CHARACTERISTICS AND BEHAVIOR

...

Crocodiles can also be seen sunning with their mouths open, or "gaping." This behavior is also related to regulating their body temperature, and does not mean that the crocodile is acting aggressively toward people. The diet of the American crocodiles primarily consists of small mammals, birds, frogs, turtles, and fish (Fishman et al. 2009).
