Empowering IT & CAT Teachers - Elza Mentz (Ed), is a methodological guide to effective teaching of the school subjects Information Technology (IT) and Computer Applications Technology (CAT). It is an easily understandable, practical guide aimed at student teachers in IT and CAT, but will also assist teachers in these subjects in their efforts to improve their teaching. Activities and assignments are included to aid students in the acquisition of skills and to guide facilitators in the assessment of the outcomes.

Argumentative Writing in a Second Language is a collection on teaching argumentative writing, offering multiple vantage points drawn from the contributors' own experiences. The value of argumentative writing cannot be overstated and yet, very little attention is spent on training teachers how to teach it. Additionally, the term argumentative is often confused with "persuasive" and other terms that add to students' confusion as to what type of writing they are supposed to do. The volume distinguishes between "learning to argue" and "arguing to learn" theories and practices. Part I of the volume is discussion-oriented while Part II shares classroom-based research on practices that account for L2 writers' characteristics and specific needs. Included are chapters on online teacher resources, assessment of argumentative writing, specific challenges for Chinese writers, source-based writing, and approaches for learner autonomy.
