~~Experimental Psychology (An Introduction) | Leo Postman---~~

"Leo J. Postman: Master Experimentalist," by James S. Nairne and Michelle E. Coverdale. Abstract: Leo J. Postman was an internationally recognized experimental psychologist whose work after World War II helped frame the modern empirical study of perception, memory, and other psychological processes. Postman was important to The American Journal of Psychology, serving as a frequent contributor, and the journal remained important to him throughout his career; in fact, he ended his research ...

Postman was one of the leaders of this movement. His 1949 book, "Experimental Psychology, an Introduction," co-authored by James Egan, was one of the fundamental texts of the new field. A 1947 book, "The Psychology of Rumor," co-authored by Gordon Allport, was the first scientific explanation of the origin and dissemination of rumors.

~~Experimental Psychology Introduction Postman Leo Egan~~

Experimental Psychology: An Introduction, co-authored with James Egan in 1949, was one of the fundamental texts reflecting the change in the discipline of psychology during the period following World War II, from the European theoretic basis to a new approach based on experimentation. He also published papers on rumor with Gordon W. Allport; incidental learning with Virginia Senders; time error in sensory perception; hoarding in rats with George Miller; retroactive inhibition; motivational ...

Leo Joseph Postman, professor emeritus of psychology and a dominant figure in the study of human memory, died on April 22, 2004, of heart failure at his home in Marblehead, Massachusetts. He was 85. Postman was "a major theoretician in the development of the theory of forgetting," said friend and colleague Donald Riley, professor emeritus of psychology.

~~Leo Postman - Academic Senate~~

Leo Joseph Postman (June 7, 1918 – April 22, 2004) was a Russian-born American psychologist known for his research on human memory. He taught at the University of California, Berkeley from 1950 to his retirement in 1987. In 1961, he founded Berkeley's Institute of Human Learning, which later became the Institute for Cognitive and Brain Sciences.
