Prof Chris Stringer | Natural History  
Museum

IndieBound. Powells. . A leading anthropology researcher on human evolution proposes a new and controversial theory of how our species came to be. In this groundbreaking and engaging work of science, world-renowned paleoanthropologist Chris Stringer sets out a new theory of humanity's origin, challenging both the multiregionalists (who hold that modern humans developed from ancient ancestors in different parts of the world) and his own "out of Africa" theory, which maintains that humans ...

Macmillan

Chris Stringer's *Lone Survivors: How We Came to be the Only Humans on Earth* comes along some seventeen years after his ground-breaking book *African Exodus: The Origins of Modern Humanity* (Henry Holt, 1996). Stringer is one of the principal architects and proponents of the "Out-of-Africa" (OOA) hypothesis associated with the origin and dispersal of anatomically modern humans, i.e., *Homo sapiens*.

Lone Survivors : Chris Stringer :  
9781250023308  
British paleoanthropologist Stringer  
(Homo Britannicus, 2006, etc.) points  
out that most scientists agree that our  
first hominid ancestors appeared in  
Africa 5 million years ago; many  
species evolved, and a few wandered  
north about 2 million years ago. Where  
Homo sapiens originated and how it  
came out on top remains a matter of  
intense debate, but Stringer marshals

the latest evidence and concludes that his own opinion is correct: Modern humans appeared in a small area of Africa about ...

LONE SURVIVORS by Chris Stringer |  
Kirkus Reviews

Stringer still thinks that this is broadly correct, but the situation is more complicated than at one time appeared, and he now prefers 'Recently Out of Africa', to reflect this. Earlier species, such as *Homo erectus* and the ancestors of the Neanderthals, left Africa long before modern humans had even evolved, and to make matters still more complicated, some of them may have migrated back to ...
