It is becoming known that information and communications technology has the potential to increase development in the areas of health, education, governance, and business in impoverished countries. Thus, new levels of integration and applications must be studied in order to expand this research area further. Sustainable ICT Adoption and Integration for Socio-Economic Development is a pivotal publication featuring the latest scholarly research on current updates regarding adoption, integration, and application of communication devices and applications across the various aspects of human progression. Highlighting a number of topics and perspectives such as inclusive education, e-governance, and e-democracy, this book is ideally designed for researchers, government officials, and academicians seeking current information on the application of new technological tools for both social and economic growth in various countries.

One of the major tools of attaining proper development all around the world is creating wealth and economic inclusion, such that all classes of people can secure their lifestyles through access to financial services from formal sectors. Expanding access to resources and increasing self-employment opportunities help reduce poverty and improve social development. Wealth Creation and Poverty Reduction: Breakthroughs in Research and Practice examines trends, challenges, issues, and strategies related to the creation of livelihood options through the redistribution of resources, foreign aid, private sector activities, and other methods. Highlighting a range of topics such as microfinance, poverty alleviation, and socio-economic development, this publication is an ideal reference source for government officials, policymakers, executives, economists, analysts, researchers, academicians, professionals, and students interested in wealth creation in areas of extreme poverty.

This World Bank report is a rich compilation of information on teaching learning materials (TLM) in Africa based on the extensive and multi-faceted experience of the author's work in the education sector in Africa. The study examines a wide range of issues around TLM provision including curriculum, literacy and numeracy, language of instruction policy, procurement and distribution challenges, TLM development and production and their availability, management and usage in schools. It also looks at the role of information and communication technology (ICT) based TLMs and their availability. The study recognizes that improved TLM system management is a critical component in achieving affordable and sustainable TLM provision for all students. This study, which draws from more than 40 Anglophone, Francophone, Lusophone, and Arabic-speaking countries will be particularly useful for policymakers, development partners, and other stakeholders attempting to understand the wide range of issues surrounding the complexity of textbook provision in Sub Saharan Africa.
