PRINCIPLES OF ECONOMICS, 3e, is designed with one overriding aim: to make this exciting and highly relevant subject clear, accessible and easy to understand. The text puts economics in the context of the real world, bringing the subject alive and giving students an insight into the economy in which we live and the economic forces that shape our lives. The distinguishing features of the book are its clarity and conciseness. These make it ideally suited to introductory courses in economics which are now largely dominated by business studies students and other non-economics majors.

In a world full of economics blogs, Cowen and Tabarrok's Marginal Revolution (marginalrevolution.com) ranks is one of the Web's most popular and most respected. The same qualities that make the blog so distinctive are also behind the success Modern Principles of Economics--engaging authors, unbiased presentations of essential ideas, and a knack for revealing the "invisible hand" of economics at work. The thoroughly updated new edition of Modern Principles again draws on a wealth of captivating applications to show readers how economics shed light on business, politics, world affairs, and everyday life.

With this edition, Eric Chiang continues to link economics concepts to topics of personal interest to students. The new edition is a thoroughly contemporary, fully integrated print/technology resource that adapts to the way you want to teach. As always, this concise book focuses on the topics most often covered in the principles course, but with this edition, it offers a stronger emphasis than ever on helping students apply an economic way of thinking to the overwhelming flow of data we face every day. Economics: Principles for a Changing World is fully informed by Eric Chiang's experiences teaching thousands of students worldwide, both in person and online. Developing the text, art, media, homework, and ancillaries simultaneously, Chiang translates these experiences into a cohesive approach that embodies the book's founding principles: To use technology as a tool for learning--before lectures, during class, when doing homework, and at exam time. To help students harness the data literacy they'll need as consumers of economic information.
