From every corner of the world and all walks of life, readers of Conversations with God have written to Neale Donald Walsch about their own experiences of God's presence in their lives. Something very unusual is occurring on this planet right now. You have no doubt noticed it. It may be producing a more than normal amount of challenge and disjointedness in your life, and perhaps even some major upheavals. You are probably noticing it in the lives of others as well. For a while you may have thought that this was all just your mind playing tricks on you; that things were not really happening any differently, and that you're just a little tired, a little overcommitted, a little oversensitive. But now, as each day presents itself with obstacles mounting and challenges increasing and more and more personal issues coming up to be faced and healed, it is apparent that all of this is

not an illusion, not an exaggeration. So you may be asking, "Why is all this happening? What am I doing wrong?" And here's the answer . . . You're doing nothing wrong. AND . . . there is something very unusual going on right now in your life, and all over the planet.

From the author of *Conversations with God*, comes a book of wonderful insight on how to achieve the goal of every human being: a meaningful life.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control — from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

I've reinvented my career, my interests, my life, many times over the past twenty years. This is the book I wish I had at the beginning of that long and often volatile journey. I found when I outsourced my self-esteem to only one outcome, disaster resulted. Reinvention was the key to ensuring that the outcomes in life were positive ones. And now the entire world: technology, governments, the shifting landscapes of opportunity and success, are all turning upside down, forcing us to reinvent as individuals and as a culture. Along my own journey I have read and encountered dozens of other successful leaders, artists, entrepreneurs, and mentors who I have learned the art of reinvention from. The journey has been intense. The obstacles were hard fought. And the adventures that led to me now finally sharing it all in this book has been both painful and exhilarating. I describe specific techniques, share stories, tell the stories of others, and give the ultimate guide to not only how but why it is critical for people to master the skills of reinvention. What I've learned: change is the only constant. Companies decay, technologies disappear, governments change, relationships change and opportunity is a shifting landscape. Reading the stories and learning the critical skills taught in *Reinvent Yourself* is how I found my own way through the chaos of change and onto the path of new opportunity and success. Again, this is the book I wish I had in my hands twenty years ago although I am glad that I am writing it now.

*Dedicated to Destiny: How to navigate the 6 stages of transformation and live your destined life.* Studies show that change is doubling each year and how we adapt to change will have a direct impact on our lives and the world. As the world transforms, so do we. The time is now for us all to live the happiest, healthiest and truest version of ourselves. In *Dedicated to Destiny*, leadership coach, Angel Carlton provides strategies of self-discovery in six stages. These provide the “how-to” for seekers of a more fulfilling life to get where they want to be. The six stages of transformation are Realize, Release, Rebound, Reinvent, Resurrect and Respond. Awareness of these stages allows readers to understand where they have been, where they are now, and where they are heading. The six stages provide a fresh outlook on life while helping clear the clutter that prevents many people from achieving greatness.

Life is idea, attitude and action. Why not make a difference this dawn? Let us today sincerely have a wildest hope to catch fish in the desert. Trust the land and faith will pour heavily to flood with deeper ponds and longer lakes full of fishes at the end. Do it and you shall get it? Believe it, trust, faith and hope are the limbs of the thought you dream of from dawn to dusk. Nothing lies above your resolution to translate dusk into dawn. The spider of life invariably keeps making the web for the self to be trapped. It is truth that the bees do not sit on the dung. Life as bees is to search the nectar of nature so that the honey on earth can spread sweetness of mankind. The garden of life should not restrict its fragrance within the boundary of self. Rise above to embrace the world leaving behind the ego of the self. Let us all be grateful to the life living in us from dawn to dusk. Dive deeper into the dusk to see the depth of dawn. Let not the hopes of billions and billions faint before the life gives way.
