Refugees. by. David Miller. 4.04 · Rating details · 28 ratings · 4 reviews. A small green swamp just past the edge of town is home to two wild blue-billed ducks. But one day huge, rumbling, grumbling machines crawled, scraping and gouging towards the swamp and out poured the swamp's precious water. Refugees tells the story of the duck's misadventures in trying to find a new place to live.

Two ducks are forced out of their swampy home by developers and search far and wide for a new place to live.

How should democracies respond to the millions who want to settle in their societies? David Miller's analysis reframes immigration as a question of political philosophy. Acknowledging the impact on host countries, he defends the right of states to control their borders and decide the future size, shape, and cultural make-up of their populations.

How to assess and deal with the claims of millions of displaced people to find refuge and asylum in safe and prosperous countries is one of the most pressing issues of modern political philosophy. In this timely volume, fresh insights are offered into the political and moral implications of refugee crises and the treatment of asylum seekers. The contributions illustrate the widening of the debate over what is owed to refugees, and why it is assumed that national state actors and the international community owe special consideration and protection. Among the specific issues discussed are refugees' rights and duties, refugee selection, whether repatriation can be encouraged or required, and the ethics of sanctuary policies.

Written by an international team of leading political and legal theory scholars whose writings have contributed to shaping the field, Migration in Political Theory presents seminal new work on the ethics of movement and membership. The volume addresses challenging and under-researched themes on the subject of migration. It debates the question of whether we ought to recognize a human right to immigrate, and whether it might be legitimate to restrict emigration. The authors critically examine criteria for selecting would-be migrants, and for acquiring citizenship. They discuss tensions between the claims of immigrants and existing residents, and tackle questions of migrant worker exploitation and responsibility for refugees. The book illustrates the importance of drawing on the tools of political theory to clarify, criticize, and challenge the current terms of the migration debate.

David Miller presents a compelling case that significant progress can be made at the local level by duplicating the actions of nine leading cities around the world.

Who are refugees? Who, if anyone, is responsible for protecting them? What forms should this protection take? In a world of people fleeing from civil wars, state failure, and environmental disasters, these are ethically and politically pressing questions. In this book, David Owen reveals how the contemporary politics of refuge is structured by two rival historical pictures of refugees. In reconstructing this history, he advocates an understanding of refugeehood that moves us beyond our current impasse by distinguishing between what is owed to refugees in general and what is owed to different types of refugee. He provides an account of refugee protection and the forms of international cooperation required to implement it that is responsive to the claims of both refugees and states. At a time when refugee protection is once again prominent on the international agenda, this book offers a guide to understanding the challenges this topic raises and shows why addressing it matters for all of us.

An accessible picture book that oh-so-simply and graphically introduces the term "refugee" to curious young children to help them better understand the world in which they live. Who are refugees? Why are they called that word? Why do they need to leave their country? Why are they sometimes not welcome in their new country? In this relevant picture book for the youngest children, author-illustrator Elise Gravel explores what it means to be a refugee in bold, graphic illustrations and spare text. This is the perfect tool to introduce an important and timely topic to children.

"Poignant and powerful." —Foreword Reviews, starred review ? "One of the most extraordinary books of the year." —BookPage, starred review A sprawling, evocative, and groundbreaking autobiographical novel told in the unforgettable and hilarious voice of a young Iranian refugee. It is a powerfully layered novel that poses the questions: Who owns the truth? Who speaks it? Who believes it? "A patchwork story is the shame of the refugee," Nayeri writes early in the novel. In an Oklahoman middle school, Khosrou (whom everyone calls Daniel) stands in front of a skeptical audience of classmates, telling the tales of his family's history, stretching back years, decades, and centuries. At the core is Daniel's story of how they became refugees—starting with his mother's vocal embrace of Christianity in a country that made such a thing a capital offense, and continuing through their midnight flight from the secret police, bribing their way onto a plane-to-anywhere. Anywhere becomes the sad, cement refugee camps of Italy, and then finally asylum in the U.S. Implementing a distinct literary style and challenging western narrative structures, Nayeri deftly weaves through stories of the long and beautiful history of his family in Iran, adding a richness of ancient tales and Persian folklore. Like Scheherazade of One Thousand and One Nights in a hostile classroom, Daniel spins a tale to save his own life: to stake his claim to the truth. EVERYTHING SAD IS UNTRUE (a true story) is a tale of heartbreak and resilience and urges readers to speak their truth and be heard.

"A vital book for understanding the still-unfolding nightmare of nationalism and racism in the 21st century." —Francisco Cantu, author of The Line Becomes a River Stephen Miller is one of the most influential advisors in the White House. He has crafted Donald Trump's speeches, designed immigration policies that ban Muslims and separate families, and outlasted such Trump stalwarts as Steve Bannon and Jeff Sessions. But he's remained an enigma. Until now. Emmy- and PEN-winning investigative journalist and author Jean Guerrero charts the thirty-four-year-old's astonishing rise to power, drawing from more than one hundred interviews with his family, friends, adversaries and government officials. Radicalized as a teenager, Miller relished provocation at his high school in liberal Santa Monica, California. He clashed with administrators and antagonized dark-skinned classmates with invectives against bilingualism and multiculturalism. At Duke University, he cloaked racist and classist ideas in the language of patriotism and heritage to get them airtime amid controversies. On Capitol Hill, he served Tea Party congresswoman Michele Bachmann and nativist Alabama Senator Jeff Sessions. Recruited to Trump's campaign, Miller met his idol. Having dreamed of Trump's presidency before he even announced his decision to run, Miller became his senior policy advisor and speechwriter. Together, they stoked dystopian fears about the Democrats, "Deep State" and "American Carnage," painting migrants and their supporters as an existential threat to America. Through backroom machinations and sheer force of will, Miller survived dozens of resignations and encouraged Trump's harshest impulses, in conflict with the president's own family. While Trump railed against illegal immigration, Miller crusaded against legal immigration. He targeted refugees, asylum seekers and their children, engineering an ethical crisis for a nation that once saw itself as the conscience of the world. Miller rallied support for this agenda, even as federal judges tried to stop it, by courting the white rage that found violent expression in tragedies from El Paso to Charlottesville. Hatemonger unveils the man driving some of the most divisive confrontations over what it means to be American—and what America will become.

From the chaos and the fear of post-war Saigon, and the terror of pirates on the open ocean, to the triumph and tragedy of a new life. Only The Heart is the story of Toan and Linh and a family that endures the nightmare in search of the dream. When logic says the dream is beyond your reach only heart knows the truth ...
