comic book that explored the inner workings of the world's most misunderstood art form. Now, McCloud takes comics to the next level, charting twelve different revolutions in how comics are created, read, and perceived today, and how they're poised to conquer the new millennium. Part One of this fascinating and in-depth book includes: The life of comics as an art form and as literature The battle for creators' rights Reinventing the business of comics The volatile and shifting public perceptions of comics Sexual and ethnic representation on comics Then in Part Two, McCloud paints a breathtaking picture of comics' digital revolutions, including: The intricacies of digital production The exploding world of online delivery The ultimate challenges of the infinite

Praised throughout the cartoon industry by such luminaries as Art Spiegelman, Matt Groening, and Will Eisner, this innovative comic book provides a detailed look at the history, meaning, and art of comics and cartooning.

David Smith is giving his life for his art—literally. Thanks to a deal with Death, the young sculptor gets his childhood wish: to sculpt anything he can imagine with his bare hands. But now that he only has 200 days to live, deciding what to create is harder than he thought, and discovering the love of his life at the 11th hour isn't making it any easier! This is a story of desire taken to the edge of reason and beyond; of the frantic, clumsy dance

steps of young love; and a gorgeous, street-level portrait of the world's greatest city. It's about the small, warm, human moments of everyday life...and the great surging forces that lie just under the surface. Scott McCloud wrote the book on how comics work; now he vaults into great fiction with a breathtaking, funny, and unforgettable new work.

Presents instructions for aspiring cartoonists on the art form's key techniques, sharing concise and accessible guidelines on such principles as capturing the human condition through words and images in a minimalist style.

Describes the techniques needed to

draw noir comics such as creating mood, staging action, working with a script, characters, and lightning.

A final installment in the late illustrator's instructional trilogy explores the principles of body grammar in comics storytelling, covering such topics as body mechanics, movement, and facial expression. Original.

"My first attempt at computer-generated artwork was, by any reasonable measure, a flop. Reaction broke down into two groups: Those who despised the book and thought that the cartoony artwork and the 3D cgi backgrounds worked badly together, and a smaller group who liked the book--and thought that the cartoony artwork and the 3D cgi
