Over the last three weeks, a large section of the path has been monitored as it has shown signs of steadily collapsing down onto the beach and ...

Discusses the history of four important African kingdoms: Ghana, Mali, Zimbabwe, and Songhay.

A groundbreaking book that puts early and medieval West Africa on the map of global history Pick up almost any book on early and medieval world history and empire, and where do you find West Africa? On the periphery. This pioneering book tells a different story. Interweaving political and social history and drawing on a rich array of sources, Michael Gomez unveils a new vision of how categories of ethnicity, race, gender, and caste emerged in Africa and in global history. Focusing on the Savannah and Sahel region, Gomez traces how Islam's growth in West Africa, along with intensifying commerce that included slaves, resulted in a series of political experiments unique to the region, culminating in the rise of empire. A radically new account of the importance of early Africa in global history, African Dominion will be the standard work on the subject for years to come.

Originally published in 1967 this volume presents studies of 10 West African kingdoms which have played an important part in the economic, political and cultural life of the region. Ranging geographically from the kingdom of Benin in southern Nigeria to the Wolof kingdom of Kayor in Senegal, they include the Oyo Yoruba, Dahomey, Hausa, Maradi, Kom in West Cameroon, the Mossi, Ashanti and Gonja and the Mende chiefdoms of Sierra Leone. Each outlines the historical origins and development of the kingdom and analyses its organization in the nineteenth century. It includes accounts of the economic basis and resources of the state and the significance of tribute and trade, of the social categories among its population, the administrative machinery and communications, the judicial and military organization and external relations. It also considers the importance of the ideology and rituals of kingship.

For more than a thousand years, from A.D. 500 to 1700, the medieval kingdoms of Ghana, Mali, and Songhay grew rich on the gold, salt, and slave trade that stretched across Africa. Scraping away hundreds of years of ignorance, prejudice, and mythology, award-winning authors Patricia and Fredrick McKissack reveal the glory of these forgotten empires while inviting us to share in the inspiring process of historical recovery that is taking place today.

Examines the social, economic, political, and cultural life of the people of ancient Ghana, Mali, and Songhai, including profiles of influential citizens.

Modern movements such as neo-Calvinism, the New Perspective on Paul, and the emerging church have popularized a view of Christianity and culture that calls for the redemption of earthly society and institutions. Many Christians have reflexively embraced this view, enticed by the socially active and engaged faith it produces. *Living in God's Two Kingdoms* illustrates how a two-kingdoms model of Christianity and culture affirms much of what is compelling in these transformationist movements while remaining faithful to the whole counsel of Scripture. By focusing on God's response to each kingdom—his preservation of the civil society and his redemption of the spiritual kingdom—VanDrunen teaches readers how to live faithfully in each sphere. Highlighting vital biblical distinctions between honorable and holy tasks, VanDrunen's analysis will challenge Christians to be actively and critically engaged in the culture around them while retaining their identities as sojourners and exiles in this world.

A study of the legends and history of the ancient West African kingdoms of Ghana, Mali, and Songhay, including background and commentary on Islam's influence in the region

Provides an overview of the culture and civilizations of the ancient West African Kingdoms of Mali, Ghana, and Songhai.

Translated from the abridged Arabic manuscript copies preserved in the Public Library of Cambridge, with notes illustrative of the history, geography, botany, antiquities, &c. occurring throughout the work. By the Rev. S. Lee.
