Spotlight on Writing offers teachers a wide variety of topics and activities to stimulate, engage, challenge, entertain and extend all pupils' writing skills. This extremely practical resource provides busy teachers and teaching assistants with a collection of worksheets that can be used as instant, educationally appropriate learning activities written specifically with the inclusive classroom in mind. The wide variety of exercises encourages pupils to think about writing and to develop skills in writing facts and information, creative writing and editing, whilst building confidence and motivation. Teachers can use this book to develop a flexible inclusive approach, comprising individualised materials and opportunities for extended practice. All the books in this series: Promote effective intervention and inclusion strategies for teachers and teaching assistants Provide materials that are solidly grounded in an understanding of how children learn and the particular difficulties of children with special needs. Stimulate discussion and interaction Can be used as part of an individual or small group learning programme for a child with special needs Provide 'whole class' materials that can also engage older children or those with a higher level of achievement Offer teachers quick, fun activities that never require additional resources, special materials or preparation. Spotlight on Writing is an essential tool for any teacher striving to offer every pupil opportunities to maximise their own potential and develop strong writing skills.

Pre-intermediate provides learners of English with reading passages. These passages are intended to act as springboards into reading comprehension activities, reading skills development, vocabulary building, grammatical analysis and practice and discussions and writing.

Teachers make a difference. The success of any plan for improving educational outcomes depends on the teachers who carry it out and thus on the abilities of those attracted to the field and their preparation. Yet there are many questions about how teachers are being prepared and how they ought to be prepared. Yet, teacher preparation is often treated as an afterthought in discussions of improving the public education system. Preparing Teachers addresses the issue of teacher preparation with specific attention to reading, mathematics, and science. The book evaluates the characteristics of the candidates who enter teacher preparation programs, the sorts of instruction and experiences teacher candidates receive in preparation programs, and the extent that the required instruction and experiences are consistent with converging scientific evidence. Preparing Teachers also identifies a need for a data collection model to provide valid and reliable information about the content knowledge, pedagogical competence, and effectiveness of graduates from the various kinds of teacher preparation programs. Federal and state policy makers need reliable, outcomes-based information to make sound decisions, and teacher educators need to know how best to contribute to the development of effective teachers. Clearer understanding of the content and character of effective teacher preparation is critical to improving it and to ensuring that the same critiques and questions are not being repeated 10 years from now.
