Douglas A. Blackmon is the Pulitzer Prize-winning author of Slavery by Another Name: The Re-Enslavement of Black Americans from the Civil War to World War II.

Slavery by Another Name

A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

This groundbreaking historical expose unearths the lost stories of enslaved persons and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude shortly thereafter in “The Age of Neoslavery.” By turns moving, sobering, and shocking, this unprecedented Pulitzer Prize-winning account reveals the stories of those who fought unsuccessfully against the re-emergence of human labor trafficking, the companies that profited most from neoslavery, and the insidious legacy of racism that reverberates today. Following the Emancipation Proclamation, convicts—mostly black men—were “leased” through forced labor camps operated by state and federal governments. Using a vast record of original documents and personal narratives, Douglas A. Blackmon brings to light one of the most shameful chapters in American history. “An astonishing book. . . . It will challenge and change your understanding of what we were as Americans—and of what we are.” —Chicago Tribune

Based on documents from a long-lost and unexplored colonial archive, *Slavery by Any Other Name* tells the story of how Portugal privatized part of its empire to the Mozambique Company. In the late nineteenth and twentieth centuries, the company governed central Mozambique under a royal charter and built a vast forced labor regime camouflaged by the rhetoric of the civilizing mission. Oral testimonies from more than one hundred Mozambican elders provide a vital counterpoint to the perspectives of colonial officials detailed in the archival records of the Mozambique Company. Putting elders' voices into dialogue with officials' reports, Eric Allina reconstructs this modern form of slavery, explains the impact this coercive labor system had on Africans' lives, and describes strategies they used to mitigate or deflect its burdens. In analyzing Africans' responses to colonial oppression, Allina documents how some Africans succeeded in recovering degrees of sovereignty, not through resistance, but by placing increasing burdens on fellow Africans—a dynamic that paralleled developments throughout much of the continent. This volume also traces the international debate on slavery, labor, and colonialism that ebbed and flowed during the first several decades of the twentieth century, exploring a conversation that extended from the backwoods of the Mozambique-Zimbabwe borderlands to ministerial offices in Lisbon and London. *Slavery by Any Other Name* situates this history of forced labor in colonial Africa within the broader and deeper history of empire, slavery, and abolition, showing how colonial rule in Africa simultaneously continued and transformed past forms of bondage.

NATIONAL BOOK AWARD FINALIST | WINNER OF THE BANCROFT PRIZE. A landmark history??—??the sweeping story of the enslavement of tens of thousands of Indians across America, from the time of the conquistadors up to the early twentieth century. Since the time of Columbus, Indian slavery was illegal in much of the American continent. Yet, as Andrés Reséndez illuminates in his myth-shattering *The Other Slavery*, it was practiced for centuries as an open secret. There was no abolitionist movement to protect the tens of thousands of Natives who were kidnapped and enslaved by the conquistadors. Reséndez builds the incisive case that it was mass slavery??—??more than epidemics??—??that decimated Indian populations across North America. Through riveting new evidence, including testimonies of courageous priests, rapacious merchants, and Indian captives, *The Other Slavery* reveals nothing less than a key missing piece of American history. For over two centuries we have fought over, abolished, and tried to come to grips with African American slavery. It is time for the West to confront an entirely separate, equally devastating enslavement we have long failed truly to see. “The *Other Slavery* is nothing short of an epic recalibration of American history, one that’s long overdue...In addition to his skills as a historian and an investigator, Reséndez is a skilled storyteller with a truly remarkable subject. This is historical nonfiction at its most important and most necessary.” ??—?? Literary Hub. 20 Best Works of Nonfiction of the Decade ““One of the most profound contributions to North American history.”??—??Los Angeles Times

In this sensitively told tale of suffering, brutality, and inhumanity, Worse Than Slavery is an epic history of race and punishment in the deepest South from emancipation to the civil rights era—and beyond. Immortalized in blues songs and movies like *Cool Hand Luke* and *The Defiant Ones*, Mississippi’s infamous Parchman State Penitentiary was, in the pre-civil rights south, synonymous with cruelty. Now, noted historian David Oshinsky gives us the true story of the notorious prison, drawing on police records, prison documents, folklore, blues songs, and oral history, from the days of cotton-field chain gangs to the 1960s, when Parchman was used to break the wills of civil rights workers who journeyed south on Freedom Rides.

A thought-provoking and important book that raises essential issues crucial not only for our past but also the present day. In this panoramic history, Jeremy Black tells how slavery was first developed in the ancient world, and reaches all the way to present day and the contemporary crimes of trafficking and bonded labour. He shows how slavery has taken many forms throughout history and across the world - from the uprising of Spartacus, the plantations of the Indies, and the murderous forced labour of the gulags and concentration camps. Slavery helped consolidated transoceanic empires and helped mould new world societies such as America and Brazil. In the Atlantic trade, Black also looks at the controversial area of how complicit the African peoples were in the trade. He then charts the long fight for abolition in the 19th century, including both the campaigners as well as the lost voices of the slaves themselves who spoke of their misery. Finally, as Black points out, slavery has not been completely abolished today and coerced labour can be found closer to home than is comfortable.

Twice the Work of Free Labor is both a study of penal labor in the southern United States, and a revisionist analysis of the political economy of the South after the Civil War.

During the nineteenth century, the United States entered the ranks of the world’s most advanced and dynamic economies. At the same time, the nation sustained an expansive and brutal system of human bondage. This was no mere coincidence. Slavery’s Capitalism argues for slavery’s centrality to the emergence of American capitalism in the decades between the Revolution and the Civil War. According to editors Sven Beckert and Seth Rockman, the issue is not whether slavery itself was or was not capitalist but, rather, the impossibility of understanding the nation’s spectacular pattern of economic development without situating slavery front and center. American capitalism—renowned for its celebration of market competition, private property, and the self-made man—has its origins in an American slavery predicated on the abhorrent notion that human beings could be legally owned and compelled to work under force of violence. Drawing on the expertise of sixteen scholars who are at the forefront of rewriting the history of American economic development, *Slavery’s Capitalism* identifies slavery as the primary force driving key innovations in entrepreneurship, finance, accounting, management, and political economy that are too often attributed to the so-called free market. Approaching the study of slavery as the originating catalyst for the Industrial Revolution and modern capitalism casts new light on American credit markets, practices of offshore investment, and understandings of human capital. Rather than seeing slavery as outside the institutional structures of capitalism, the essayists recover slavery’s importance to the American economic past and prompt enduring questions about the relationship of market freedom to human freedom. Contributors: Edward E. Baptist, Sven Beckert, Daina Ramey Berry, Kathryn Boddy, Alfred L. Brophy, Stephen Chambers, Eric Kimball, John Majewski, Bonnie Martin, Seth Rockman, Daniel B. Rood, Caitlin Rosenthal, Joshua D. Rothman, Calvin Schermerhorn, Andrew Shankman, Craig Steven Wilder.

In this “essential?” (Kirkus) new work, Noel Rae integrates firsthand accounts into a narrative history that brings the reader face to face with slavery’s everyday reality, expertly weaving together narratives that span hundreds of years. From the travel journals of sixteenth-century Spanish settlers who offered religious instruction and “protection”? in exchange for farm labor, to the diaries of poetess Phillis Wheatley and Reverend Cotton Mather, to Central Park designer Frederick Law Olmsted’s book about traveling through the “cotton states.”? to an 1880 speech given by Frederick Douglass, Rae provides a comprehensive accounting of parties from throughout the antebellum history of the nation. Rae also draws on a wide variety of accounts from less distinguished individuals: a surgeon describes the brutal treatment and squalid conditions onboard a slave ship as he made his daily rounds to collect the dead; an Englishman visiting Haiti observes violent uprisings as, separated from the population on the mainland, slaves were able to overpower their captors. Most significant are the texts from and interviews with former slaves themselves, ranging from the famous Solomon Northup to the virtually unknown Mary Reynolds, who was sold away from her mother and subsequently bought back not for sentiment or kindness, but because after losing her daughter, the family’s wet nurse began to waste away from grief. Surpassing a dispassionate listing of atrocities, Rae places the reader within the era. Drawing on thousands of original sources, *The Great Stain* tells of repression and resistance in a society based on the exploitation of the cheapest labor and fallacies of racial superiority. Meticulously researched, this is a work of history that is profoundly relevant to our world today.

“A masterwork [by] the preeminent historian of the Civil War era.”—Boston Globe Selected as a Notable Book of the Year by the New York Times Book Review, this landmark work gives us a definitive account of Lincoln’s lifelong engagement with the nation’s critical issue: American slavery. A master historian, Eric Foner draws Lincoln and the broader history of the period into perfect balance. We see Lincoln, a pragmatic politician grounded in principle, deftly navigating the dynamic politics of antislavery, secession, and civil war. Lincoln’s greatness emerges from his capacity for moral and political growth.
