Health care educators teach versions of teamwork that are inadequate and clinicians cling to autonomous modes of practice. IHCTs have characteristics and problems that are unique to health care settings and the health providers who work in them. Drinka and Clark present a groundbreaking attempt to develop a comprehensive framework for IHCTs. They intend to empower clinicians who work on teams and educators who teach teamwork to impart the basic essentials of effective interdisciplinary teamwork in the health

Anyone who is currently working in health care or is considering a career in health care should read this book.
