Ever dreamed of learning French with using an unfair advantage? Teaching French is my job, but I must admit it's not easy. Some people say there's no shortcut to learning a language. It's not possible to teach every single rule or reason. French has many exceptions. Then, it's necessary to find a shortcut, or some tricks to stay motivated. 80% of what you learn in books will be different in daily French. This book is all about French language and statistics. Whereas we can't only rely on statistics, you can leapfrog many things and find your way thanks to it! I'm sure this book will help you to focus on what's necessary and useful!

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, *Fluent In 3 Months*. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

Incineration has been used widely for waste disposal, including household, hazardous, and medical waste--but there is increasing public concern over the benefits of combusting the waste versus the health risk from pollutants emitted during combustion. *Waste Incineration and Public Health* informs the emerging debate with the most up-to-date information available on incineration, pollution, and human health--along with expert conclusions and recommendations for further research and improvement of such areas as risk communication. The committee provides details on: Processes involved in incineration and how contaminants are released. Environmental dynamics of contaminants and routes of

human exposure. Tools and approaches for assessing possible human health effects. Scientific concerns pertinent to future regulatory actions. The book also examines some of the social, psychological, and economic factors that affect the communities where incineration takes place and addresses the problem of uncertainty and variation in predicting the health effects of incineration processes.

This groundbreaking book explains the "whats" and "how-tos" of metacognitive therapy (MCT), an innovative form of cognitive-behavioral therapy with a growing empirical evidence base. MCT developer Adrian Wells shows that much psychological distress results from how a person responds to negative thoughts and beliefs—for example, by ruminating or worrying—rather than the content of those thoughts. He presents practical techniques and specific protocols for addressing metacognitive processes to effectively treat generalized anxiety disorder, obsessive-compulsive disorder, posttraumatic stress disorder, and major depression. Special features include reproducible treatment plans and assessment and case formulation tools, plus a wealth of illustrative case material.

Diving deep into the JavaScript language to show you how to write beautiful, effective code, this book uses extensive examples and immerses you in code from the start, while exercises and full-chapter projects give you hands-on experience with writing your own programs. --
