The second is the base unit of time in the International System of Units, commonly understood and historically defined as  $1/86400$  of a day – this factor derived from the division of the day first into 24 hours, then to 60 minutes and finally to 60 seconds each. Analog clocks and watches often have sixty tick marks on their faces, representing seconds, and a "second hand" to mark the passage of time in seconds.

Digital clocks and watches often have a two-digit seconds counter. The second ...
