source of information on medical problems commonly seen in the tropics. A practical guide to diagnosis and management for medical practitioners and students, it can fit in the coat pocket and be used easily at the bedside.

Missionaries, Mental Health, and Accountability opens with stories of scriptural saints who struggled. Then, global contributors-comprised of both Korean and Western writers-reach into the complexity of missionary mental health with the added component of accountability in church and agency support systems.

Now in its fourth edition and with a new title – Injection Techniques in Musculoskeletal Medicine – this successful step-by-step guide is a trusted resource used by a wide range of practitioners who have to deal with the management of painful joints and soft tissues, particularly in relation to sports and overuse injuries. Area by area, guidance is given for each lesion on appropriate patient selection and delivery of the drug. Every technique has its own two-page spread containing a written description along with an anatomical illustration of the region and a photograph showing the anatomical landmarks for the injection. This new edition is now accompanied by a Trainer available via [www.injectiontechniquesonline.com](http://www.injectiontechniquesonline.com). Please see log on for further details on how to access the virtual training guide - introduced by Stephanie Saunders herself - which covers the top most common injection techniques for each of the body regions. Through key text, videos, animations and interactive self-assessment, users are tested on their knowledge of anatomical landmarks, differential diagnoses, assessment criteria, drug selection and technical skill. Further access is given to a library of over 50 video clips showing supplementary injection techniques which clearly demonstrate the correct anatomical position for each needle insertion. Illustrations, references, lesions, drugs, controversies! Chapters on Other Injectable Substances; Landmark and Image Guided Injections Latest evidence in injection therapy literature Adapted and simplified practical sections Access to Musculoskeletal Injection Techniques Trainer – a virtual aid to test your anatomical and technical skills on the top most common injections for the upper and lower limbs and spine – perfect for self-testing and honing your skills! Log on to [www.injectiontechniquesonline.com](http://www.injectiontechniquesonline.com) to begin The Trainer also gives unlimited access to a bank of over 50 video clips demonstrating actual needle insertion for each lesion

More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you:

- Avoid the 9 deadly sins that destroy startups' chances for success
- Use the Customer Development method to bring your business idea to life
- Incorporate the Business Model Canvas as the organizing principle for startup hypotheses
- Identify your customers and determine how to "get, keep and grow" customers profitably
- Compute how you'll drive your startup to repeatable,

scalable profits. The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In *The Life You Can Save*, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. *The Life You Can Save* teaches us to be a part of the solution, helping others as we help ourselves.

Deliver quality healthcare in the most challenging field conditions Full of practical clinical pearls and proven strategies, this indispensable guide shows you how to operate outside your comfort zone and devise effective treatment solutions when the traditional tools (medications, equipment, and staff) are unavailable—or when you need to provide care outside of your specialty. *Improvised Medicine* is a must for anyone who plans to work in global, disaster, or other resource-poor settings. **FEATURES:** Simple-to-follow directions, diagrams, and illustrations describe practical techniques and the improvised equipment necessary to provide quality care during crises. Contains improvisations in anesthesia and airway management, dentistry, gynecology/obstetrics, infectious disease/laboratory diagnosis, internal medicine, otolaryngology, pediatrics and malnutrition, orthopedics, psychiatry, and surgery. Also includes basic disaster communication techniques, post-disaster forensics, a model hospital disaster plan, and innovative patient-transport methods. **LEARN HOW TO:** Make an endotracheal tube in seconds Perform digital-oral and blind-nasotracheal intubations Make plaster bandages for splints/casts Give open-drop ether, ketamine drips, and halothane Use subcutaneous/intraperitoneal rehydration/transfusion Make ORS and standard nutrition formulas Clean, disinfect, and sterilize equipment for reuse Warm blood units in seconds inexpensively Take/view stereoscopic x-rays with standard equipment Quickly and easily stop postpartum hemorrhage Fashion surgical equipment from common items Evacuate patients easily for high-rise hospitals Make esophageal and precordial stethoscopes Quickly improvise a saline lock Make ECG electrode/defibrillator pads and ultrasound gel
