This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

"The story of Helen Keller, who learned to read and write despite being deaf and blind, and became an activist who fought for the rights of disabled people"--

Helen Keller had absolutely no hearing or eyesight from the age of two, but became one of the most inspiring and well known people to have ever lived. For a number of years she functioned, in her words, simply as "an unconscious clod of earth." Then quite suddenly, she experienced the impact of "another mind" within her own. Despite not knowing where it came from or how it got there, she awoke to a new awareness of being able to talk and listen with her hands. She learned to read and write, wrote at least ten books, and attended college. Her religion developed from living deeply within her spiritual self, cut off from normal sensation, and spending her life on a spiritual plane. She incorporated her own experiences with the teachings of Emanuel Swedenborg, a mystic born in 1688, and the Swedenborgian Church. Swedenborg, like Keller, had experienced other realms of spirit and transmitted deeper teachings that Helen saw with great clarity. She wrote this book after receiving many requests for her to describe her religious beliefs.

Recounts the life and achievements of Helen Keller who, with the help of her teacher, Annie Sullivan, overcame the limitations of being both blind and deaf to become an author and an advocate for the rights of disabled people.

Helen Keller lost her ability to see and hear before she turned two years old. But in her lifetime, she learned to ride horseback and dance the foxtrot. She graduated from Radcliffe. She became a world famous speaker and author. She befriended Mark Twain, Charlie Chaplin, and Alexander Graham Bell. And above all, she revolutionized public perception and treatment of the blind and the deaf. The catalyst for this remarkable life ' s journey was Annie Sullivan, a young woman who was herself visually impaired. Hired on as a tutor when Helen was six years old, Annie broke down the barriers between Helen and the wider world, becoming a fiercely devoted friend and lifelong companion in the process. In Annie Sullivan and the Trials of Helen Keller, author and illustrator Joseph Lambert examines the powerful bond between teacher and pupil, forged through the intense frustrations and revelations of Helen ' s early education. The result is an inspiring, emotional, and wholly original take on the story of these two great Americans.

The Civil War is a much plumbed area of scholarship, so much so that at times it seems there is no further work to be done in the field. However, the experience of children and youth during that tumultuous time remains a relatively unexplored facet of the conflict.Children and Youth during the Civil War Era seeks a deeper investigation into the historical record by and giving voice and context to their struggles and victories during this critical period in American history. Prominent historians and rising scholars explore issues important to both the Civil War era and to the history of children and youth, including the experience of orphans, drummer boys, and young soldiers on the front lines, and even the impact of the war on the games children played in this collection. Each essay places the history of children and youth in the context of the sectional conflict, while in turn shedding new light on the sectional conflict by viewing it through the lens of children and youth. A much needed, multi-faceted historical account.Children and Youth during the Civil War Era touches on some of the most important historiographical issues with which historians of children and youth and of the Civil War home front have grappled over the last few years.

When a childhood illness leaves her blind and deaf, Helen Keller's life seems hopeless indeed. But her indomitable will and the help of a devoted teacher empower Helen to triumph over incredible adversity. This amazing true story is finally brought to the beginner reader level.
