“Finally, a celebration of strong women and strong cocktails! Lovingly hand-drawn and deliciously punny, Merrily Grashin's collection of enhanced classic cocktails and original artwork is a tribute to women—like Grashin herself—who inspire us to break all the rules.”—Stephanie Danler, New York Times bestselling author of Sweetbitter The perfect mix of punny humor, feminist verve, and practical instruction, *Women's Libation!* is a cocktail guide for the lady who likes to shake things up (and not just her martinis). Nadine Artemis invites us to rethink conventional notions of beauty and wellness, to abandon established regimes and commercial products, and to embrace orenegadeo beauty—a practice of doing less and allowing the elements and the life force of Nature to revive the body, skin, and soul so that the natural radiance of our own beauty can shine through. This engaging book explains how our ancestors lived deeply rooted in and reliant on nature, though now we have lost our connection with the elements that once sustained us. The author takes us on a trip to the not too distant past when our lives were integrated with nature, which furnished our health and beauty. She exposes the philosophy that caused this shift and examines why and when we withdrew from the natural world around us, and the devastating health, emotional, and

cultural problems that resulted. Along the way, she reviews historical definitions of beauty from ancient Egypt to Plato, the Renaissance and Enlightenment periods, and the Golden Mean. Anyone stuck in perpetual loops of new products, facials, and dermatologist appointments will find answers as Artemis introduces the energizing elements of sun, fresh air, water, the earth, and plants. She invites readers to ditch their regimes and simplify their routines as she leads us on a joyful journey of cellular rejuvenation. Tackling common beauty complaints, she offers practical botanical, microbial, and dietary suggestions to rejuvenate the cells, reenergize health, and allow beauty to bloom. She draws on current nutrition research to advise us about which foods are health sustaining and which should be avoided. As we shift toward chemical free and environmentally safe self-care products, this book is a comprehensive guide for anyone who wants to simplify their self-care routine, discover their own radiant beauty, and take their health into their own hands.

Gone are the days when a lonely bottle of Angostura bitters held court behind the bar. A cocktail renaissance has swept across the country, inspiring in bartenders and their thirsty patrons a new fascination with the ingredients, techniques, and traditions that make the American cocktail so special. And few ingredients have as rich a history or serve as fundamental a role in our beverage heritage as bitters. Author and bitters enthusiast Brad Thomas Parsons traces the history of the world's most storied elixir, from its earliest "snake oil" days to its near evaporation after Prohibition to its ascension as a beloved (and at times obsessed-over) ingredient on the contemporary bar scene. Parsons writes from the front lines of the bitters boom, where he has access to the best and boldest new brands and flavors, the most innovative artisanal producers, and insider knowledge of the bitters-making process. Whether you're a professional looking to take your game to the next level or just a DIY-type interested in homemade potables, Bitters has a dozen recipes for customized blends--ranging from Apple to Coffee-Pecan to Root Beer bitters--as well as tips on sourcing ingredients and step-by-step instructions fit for amateur and seasoned food crafters alike. Also featured are more than seventy cocktail recipes that showcase bitters' diversity and versatility: classics like the Manhattan (if you ever get one without bitters, send it back), old-guard favorites like the Martinez, contemporary drinks from Parsons's own repertoire like the Shady Lane, plus one-of-a-kind libations from the country's most pioneering bartenders. Last but not least, there is a full chapter on cooking with bitters, with a dozen recipes for sweet and savory bitters-infused dishes. Part recipe book, part project guide, part barman's manifesto, Bitters is a celebration of good cocktails made well, and of the once-forgotten but blessedly rediscovered virtues of bitters.

virtually intoxicating guide also offers quotes from famous moms and sidebars about pregnancy and health and such options as “De-virginize for Dad”—making these drinks applicable to all. Includes a recipe exclusively provided by Celebrity Chef Michel Richard, recipient of the 2007 Outstanding Chef James Beard award, author of *Happy in the Kitchen*, and owner of the legendary Citronelle restaurant in Washington, DC.

Originally published in 1951, this book provides an account of the traditional status and functions of the Asanti chief. The effects of British administration on the powers of the chief and his council are described, as are the tensions which the traditional political organization was subjected to by the requirements of modern administration. The author of this book was himself an Ashanti and was the first West African to be appointed to the Colonial Administrative Service.

Timed to coincide with the much anticipated *Downton Abbey* movie, this enticing collection of cocktails celebrates the characters, customs, and drinking way of life at Downton Abbey. Cocktails were introduced in the drawing rooms of Downton Abbey in the 1920s, when US prohibition inspired the insurgence and popularity of American-style bars and bartenders in Britain. This well-curated selection of recipes is organized by the rooms in the Abbey in which the drinks were served and spans everyday sips to party drinks plus hangover helpers and more. In addition to classic concoctions like a Mint Julep, Prince of Wales Punch, and Ginger Beer, this collection features character-specific variations such as Downton Heir, Turkish Attaché, The Valet, and The Chauffeur. The recipes reflect drinks concocted and served upstairs and down, as well as libations from village fairs, cocktail parties, and restaurant menus typical of the time. Features 40+ color photographs, including drink images photographed on the set of Downton Abbey.

This study recovers the history of immigrants who left scant records of their struggle to survive in a society in which the Chinese were reviled as dangerous, opium-soaked, and unassimilable. It is based on about 3,000 contemporary newspaper and magazine articles that reflect the prejudices of the times, a major element shaping the history of the Chinese in New York. More than 170 illustrations from newspapers and magazines of the time recapture the stereotyping that justified ghettoization and denial of employment opportunities.
