Grade 8 Geography. In Grade 8, the study of geography focuses on patterns in human geography, economic systems, and migration. Students will explain population distribution and characteristics, and investigate how human activities are affected by these patterns. They examine economic systems and the economic relationships between Canada and the global community, as well as the major types of migration and factors affecting human mobility.

~~Geography 8—Matthew Patterson~~

The world population is growing rapidly. Environmental and economic factors affect population density, distribution and structure. Migration has positive and negative effects on a country or area.
