You can get rich by working hard and investing wisely for a long time. Or you can get rich by founding a wealthy spouse. This guide will share how to get a rich man to be your boyfriend or husband Out of the 140 million tax returns filed in the United States every year, about 1.4 million make an adjusted gross income of over \$450,000 a year. We're talking about a top on percent income, which is clearly considered rich. Now imagine if there were 1.4 million undead zombies roaming the country. They'd be everywhere! Most would agree that a top 1% income is rich wherever you live. However, some will say you're just middle class if you've got to pay for private school tuition in cities such as San Francisco, New York, Paris, and London! Given it is one of our mantras to always describe ourselves as middle class, being called financially average is a blessing. Regardless of what your true financial definition of rich is, your mission if you choose to accept, is to lock down one of the 1.4 million+ rich people the IRS knows about to marry you. Seriously, why bother trying to slave away for decades to become a millionaire when you can just marry one? The one tautology about money is that once you have money, you don't worry as much about not having money. And when you worry less about money, you get to fight more about all the other joys in a relationship. This guide will provide some insights into how single men who make over \$470,000 a year in income or who have net worths of over \$3 million dollars think about women and marriage. \$3 million is the new \$1 million thanks to inflation. Once you understand such a man's fears and hopes, you are well on your way to living the good life! Get this Copy today by Scrolling Up and Clicking Buy Now to Get this Copy Today
